EPA fracking investigation in Wyoming revisited after objections

Ars Technica

In December of last year, Ars reported on a major EPA study in Pavillion, Wyoming that concluded hydraulic fracking operations there had contaminated the groundwater aquifer. While there wasn't a clear link to contamination detected in some shallow ...

EPA fines adhesives maker, which plans move from Bremerton to county

Kitsap Sun

But it had failed to submit a required risk-management plan to the EPA, which came to light in a 2007 EPA inspection, according to Suzanne Skadowski, a spokeswoman for the agency. Information in risk-management plans helps emergency responders ...

EPA orders wetlands restored

Norwich Bulletin

The owners of a Sterling horse boarding and training farm were ordered to restore more than 11 acres of wetlands federal officials said were illegally altered during construction of a private golf course. The U.S. Environmental Protection Agency said ...
